PRESS RELEASE

Management and Engineering Technologies International Inc. (METI, Inc.) *hires recently retired senior level executive from the Drug Enforcement Agency to head up its Strategic Programs Division.*

El Paso, Texas, November 1, 2006: METI, Inc. announced today that they have hired a recently retired Senior Executive Service (SES) Drug Enforcement Agency (DEA) agent to serve as Vice President of Operations. His duties will include heading up their strategic Homeland Defense and Cyber Security Programs.

Mr. James S. Mavromatis, the former Director and SES in charge of the high profile El Paso Intelligence Center (EPIC), announced his retirement from the United States Government on October 3rd 2006. Mr. Mavromatis' career, defending our country against a number of threats, spans over thirty-three years. Mr. Mavromatis worked his way from a detective for the Phoenix Police Department to the SES in charge and Director of EPIC. Mr. Mavromatis' last assignment at EPIC resulted in his direct supervision of over 300 staff and agents, and the coordination of a number of participating agencies to include Federal Bureau of Investigation (FBI), Immigration Control and Enforcement (ICE), Department of Homeland Security (DHS), Transportation Security Administration (TSA), Department of Interior (DOI), U.S. Forest Service, Bureau of Alcohol Tobacco and Firearms and a host of other participating agencies.

METI, Inc. Senior Vice President for Administration, Mr. Tim F. Johnson, issued the following statement, "METI is honored to have been successful in the recruitment of Mr. Mavromatis". Mr. Johnson also stated that "Normally, such a high profile and high ranking individual can basically go to work for a number of companies, both small and large, but small companies usually are not successful in the hiring of such an individual. Mr. Mavromatis' commitment to come to work for METI speaks volumes about our company and the direction we're headed. We look forward to having Mr. Mavromatis as part of the METI family."

Headquartered in El Paso, Texas METI, Inc., specializes in providing professional services such as Systems Engineering and Information Technology to the Federal Sector. METI, Inc. was founded in 1994 and has highly skilled professionals working both domestically and internationally supporting the U.S. Government.
