# PRESS RELEASE

Management and Engineering Technologies International, Inc.  
(METI, Inc.) *receives the Directors Award during the Local Minority Enterprise Development Week awards ceremony held in El Paso, Texas*

**El Paso, Texas, November 2009:** Management and Engineering Technologies International, Inc. (METI, Inc.) announced today that they have received an award from the Regional Director for the Dallas National Enterprise Center (NEC). Mr. John S. Iglehart presented to METI, Inc.'s President, Mr. Renard U. Johnson, the Directors Award during the Minority Enterprise Development (MED) Week luncheon held at the Double Tree Hotel in El Paso, Texas. The National Enterprise Center is a partnership made up of the Minority Business Development Agency and the U.S. Department of Commerce. Mr. Johnson was completely surprised that his firm was selected to receive such a prestigious award. Mr. Johnson accepted this award on behalf of all of his employees and customers both domestically and internationally and thanked the El Paso Hispanic Chamber of Commerce for the nomination.

The U.S. Small Business Administration (SBA) has teamed up with the Minority Business Development Agency (MBDA) to host both the National and Regional Minority Enterprise Development Weeks during luncheons and conferences across the country to honor America's entrepreneurship.

Headquartered in El Paso, Texas METI, Inc., specializes in providing professional services such as System Engineering and Information Technology services to the Federal Sector. METI, Inc. was founded in 1994 and has highly skilled professionals working both domestically and internationally in support of the U.S. Government and commercial customers.
